

Nuthatch Nursery Hatchlings Spring Term 2 2024 The Colour Monster

This half term in Hatchlings, we will be focusing on the story *The Colour Monster*. Through this story, we will be learning to identify, explore and name our emotions. We will also be giving the children some tools to support them through certain emotions, such as feeling sad or angry.

Ideas for extending learning at home:

- Can you practice your junk modelling by making old toilet rolls into your own mini Colour Monsters?
- Talk about emotions as your child feels them, by modelling phrases such as 'You are feeling sad, it's okay to have a cry' 'I can see you are so happy, your face is so smiley'
- Can you visit the library and see what other stories you can find that talk about our feelings and emotions?
