

AMAZING ANIMALS

NUTHATCH NURSERY

FLEDGLINGS

SUMMER TERM 1 2024

This half term we will be exploring all the amazing animals in our world. We will be learning about where animals live around the world, different habitats, what different animals eat, learning about pets and vets and much more!

We are always led by childrens interests and so there will lots more learning outside of this theme.

Ideas for extending learning at home:

- Explore where animals live around the world. Can you find them on a world map?
- Visit a zoo and see what animals you can find! Take lots of photos to share with your friends at nursery
- Junk Modelling- Can you create your own habitat for an animal/animals of your choice?
- Go on a mini beast hunt in your garden or on a walk. What did you find?
